For us at PRB&M, Rarebooks.info is an integral and much appreciated part of our reference library: when consulting those reference books in rarebooks.info (the body of which increases every year) they take up no space on our desks, already crowded by the books being catalogued, our note pads, etc.

Finding the desired bibliographical entry is quick and by using the "search all" function one can search multiple bibliographies and sometimes make unexpected discoveries.

Yes, as a five-year subscriber, we are clearly enthusiastic about this cataloging resource.
